Mexico – Enjoying Mayan monuments and tequila in Latin America

WHEN: Wednesday, January 12, from 5:30 pm

WHERE: Sommellerie, Filadelfie Building, Želetavská 1525/1

The traveler and photographer Jarda Brousek will initially take us to Mexico City during his talk on Mexico, but we will then travel throughout the entire Yucatan Peninsula with a finger on the map. We will visit the most significant Mayan monuments such as Chichen Itza and Teotihuacan, swim in the beautiful Agua Azul Waterfalls and investigate the undersea world on the island of Cozumel. The history of this country and its monuments is an unbelievable showcase of the many civilizations that have lived there throughout the ages. Mexicans have a different lifestyle to us here in Central Europe and the unique atmosphere in their cities and villages is literally enchanting.

The event will take place in accordance with the anti-epidemic measures applicable on the day, which can be found **HERE**. If necessary, the event will be held online, on the **Brumlovka FB profile**.

JK: This year, square is all the rage

JK presents its new collection for 2022. It is called CUBISTIC and is a celebration of cubism, an artistic movement from the early 20th century, especially involved in architecture. The collection deviates from the romantic appearance of jewellery that is abundantly represented by other collections and it substitutes it with a more technical concept.

It offers a counterpoint to organic motifs. It is a shift from an ornament to minimalism and the exposure of the raw material without any adornment. At first glance, pieces for men may seem to dominate, but there is certainly also a wide variety of pieces for women to choose from. Almost the entire collection is unisex.

It is still possible to use the exceptional 15% discount on purchases of JK jewellery until the middle of January.

ASKO presents a unique automatic washing machine

The robust free-standing W4086C.S/1 washing machine from the luxury Scandinavian brand, ASKO, uses the patented Quattro Construction™ solution, where the drum stands on four shock absorbers attached to the lower plate. This means that the washing machine is remarkably resistant and quiet and it does not shake even during intensive spin cycles.

It has the unique Steel Seal™ door system without a rubber gasket, just like ASKO washing machines for professional operations. And there is a good reason for this. A rubber gasket can easily degrade and collect dirt and bacteria. The Steel Seal™ system not only guarantees excellent hygiene, but also much simpler loading and unloading of the washing machine with laundry. The execution of the internal and external housing in stainless steel is also very elegant. On display at the ASKO designer showroom in the Beta Building.

A postbox is returning to Brumlovka

The Brumlovka Building houses, amongst other things, a branch of the Czech Post Office that will be happy to help you send any parcels and letters.

If, however, you send regular letters and don't want to wait in a queue at the branch or you want to post a letter outside opening hours, there is now a newly established postbox available to you. You can find it near the Alpha Building, by the bus stop in the direction from Budějovická to Michle. Just make sure that your letter or postcard includes a stamp with the required postage.
