

## BRUMLOVKA Square Completion and Želetavská Street Update

Work began at the end of February on the reconstruction of the square and pedestrian zones around the BRUMLOVKA, ALPHA, and BETA Buildings. The goal is to create an attractive space with front gardens, relaxation zones, new water features, and a place to hold public events. The space will be complemented with trees, public lighting, and outdoor furnishings. The reconstruction will last until the end of May. The area will be fenced off for safety, but entrances to individual buildings and updates will remain open. In conjunction with this work around the Brumlovka Building, **updates are being made to the outdoor spaces in front of the FILADELFIE Building on Želetavská Street.** A space will be created for sitting, relaxing, and much more. We appreciate your patience and understanding with regards to the necessary restrictions, and we ask that you exercise extra care in these areas.

## New Timetables for the BB1 and BB2 Lines, New Delta Building Stop

As part of the optimization of the bus routes through the complex, **on Monday, March 5, the timetables for the BB1 and BB2 lines will be updated.** The new departure times for the complex shuttle buses have been coordinated with departures from Budejovicka not only in relation to public transportation, but also to give people heading to BB Centrum sufficient transfer time.

In addition to the timetable update, as of Monday, March 5, **the less-frequented stop "Za Betou" will be cancelled and a new stop "Delta" will be implemented.** The stop will be situated on Za Brumlovkou Street at the entrance to the DELTA Building. For more information, including an exact timetable and maps, please see our website at [www.bbcentrum.cz](http://www.bbcentrum.cz).
