

Gala Opening of Brumlovka Square

BB Centrum is not only a place to work – it's also a place for entertainment, sports, and cultural and social activities. **And it was for these activities that Brumlovka Square was designed.** The new public space measures nearly 4,500 m² and its sole investor, with over CZK 65 million invested, was the development and investment company PASSERINVEST GROUP. The new square will be used primarily for meet-ups, relaxation, and refreshments, and for **cultural and sports events, as well as enriching public life in Prague.** In addition to the square, a new pedestrian walkway was built as well as a new bus station, which will simplify and improve traffic flow throughout the complex.

For upcoming events, be sure to check the BB Centrum website and FB page. **We look forward to seeing you!**
